

BOCC Wrap-Up

July 13, 2020

9:30 a.m.

Present: Commissioner Stamper, Commissioner Fund, Commissioner Jackson, County Manager Erik Martin, Becky Butler, Steve Wohld, Tammy Martin

Recorder: Rieva Lester

Erik Martin said the county has learned of new COVID-19 cases that will be announced later in the day.

Erik said a public mask policy is in the works. The group discussed how to accommodate individuals who indicate that they cannot wear a mask due to a medical condition. The group discussed the possibility of limiting access to the historic courthouse to one entry point so one person would be the point of contact.

Becky Butler said a grant document has been drafted to allow using \$18,000 from the mental health tax fund to provide matching funds for matching funds.

Becky said she is looking to see if \$10,000 in .09 Distressed Counties funding could be used as matching funds for a distance learning grant.

Commissioner Fund made a motion to allow awarding \$10,000 in .09 (Distressed Counties) funds to be used as matching funds for a distance learning grant – contingent on the Prosecuting Attorney's Office review and approval – and to allow the County Manager to sign a letter indicating such on the county's behalf.

Commissioner Jackson seconded.

Motion passed 3-0.

Erik Martin discussed broadband funding available through the USDA.

Meeting ended at 9:58 a.m.
