County Manager Erik Martin said Mackey Smith of Tanner LLC has provided a final draft of the Strategic Plan and that his hope is for the commissioners to approve it to move forward toward final adoption via resolution.

Mackey reviewed Strategic Plan, especially focusing on the strategic directives and mission statement. Mackey said he reached out to Sheriff Snaza to have the sheriff review the document.

Strategic Planning Advisory Committee (SPAC) members Larry McGee and Peggy Hammer said the overall response was positive and constructive. They and Joe Clark emphasized that the final product reflects what the community has identified as its top priorities.

Mackey said he will return in January to work with staff on how to best implement the Strategic Plan.

The group discussed reaching out to the groups that participated in the planning process and to adopt the document sooner rather than later.

Erik said he has it tentatively planned to go before the commissioners via resolution on Nov. 2.

Meeting adjourned at 4:10 p.m.
